State Scientific Research Control Institute of Veterinary Medicinal Products  
and Feed Additives,  
11, Donetska str., Lviv, 79019, Ukraine

In January 1998, the State Consumer Standard of Ukraine on the basis of the Institute was accredited the first veterinary medicine in Ukraine Test Center with agreed test methods in accordance with national and international standards. In the structure of the Center all the specialized laboratories of the institute are accredited. This year the Test Center has turned 20 years of fruitful activity and recognition. The Institute has passed all the accreditation stages - from the UkrSEPRO system to the international standard DSTU ISO / IEC-17025. The policy and strategy of the Center extends not only to enterprises that produce products for veterinary medicine, feed, feed additives, premixes, but also to improve their activities in terms of satisfying the interests of interested partners and their competitiveness in the market for products for veterinary medicine.

The Test Center of the institute has become a true center of professional training of high quality specialists, who can certify that the products of veterinary medicine and the list of food products meet the standards.

In January 2019, it turned out to be 20 years during which the institute is in the system of domestic and international accreditation. During this period, all responsible stages of accreditation - from the UkrSEPRO system to international according to the standard SSTU ISO/IEC 17025 – have passed.

The peculiarity of the activity of the accredited testing center of the institute is that the policy and strategy of its activity extends not only to enterprises that produce products for veterinary medicine, in particular, veterinary preparations, feeds, feed additives, premixes with an assessment of quality and safety indicators for compliance with national and international standards, but also to improve their activities in terms of satisfying interiors the essays of all interested partners, respectively, are competitive in the market.

The testing center of the institute was the first accredited in veterinary medicine of Ukraine, is original in number of accredited units and the area of accreditation.
